

VECTOR MULTIPURPOSE ATF (AUTOMATIC TRANSMISSION FLUID)

Vector Multipurpose Transmission Fluid is an automatic transmission fluid formulated to meet the needs of high performance, multi-purpose, power transmission fluid requirements. It is designed for use in passenger car and light truck automotive transmissions. It is a blend of high quality base oils and premium additives that provide outstanding oxidation and thermal stability, friction control, load-carrying ability, corrosion and wear protection as well as preventing the accumulations of deposits and the formation of sludge, varnish, and foam. It is especially effective in reducing and minimizing annoying transmission "chatter", and provides fast circulation during cold weather and excellent lubrication and performance when hot.

TYPICAL PROPERTIES	
ATF	MP ATF
Kinematic Viscosity, ASTM D445 cST@40°C cST@100°C	36.07 7.34
Viscosity Index, ASTM D2270	175
Pour Point, C, ASTM D97	< -38
Phosphorus, ppm, Spectrometer	240

Note: Values shown above are representative of current production and many vary within modest ranges.
